

Gauvigyan

Anusandhan Kendra

Our research and development branch (Panchgavya Sansthan) analyses the scientific properties of panchgavya. Experiments are carried out on the benefits of cow dung, urine and other natural substances. Gomutra research has proven effective in curing nearly ALL ailments including cancer, diabetes, viral and bacterial infections, removing toxins, and more! We have also developed 100% organic cow urine based disinfectant (phenyl) and dettol.

We are now working on over 100 different projects relating to how cow can benefit the different areas of environment, energy, agriculture, health/ medicine and culture.

Gomayavaste Lakshmi

"All wealth and prosperity lie in cow dung."

Gaumatre Sarvoshadhinam

"All medicinal properties found in nature lie in cow urine."

Future Initiatives

- Establish Panchgavya Research & Training Center
- Development of National Fodder Bank
- Coordinate Gaurakshak chain for every state ensuring total care of ALL cows
- Organize health camps on nutrition, panchgavya, yoga and Neurotherapy
- Eco-tourism inviting all to learn about Panchgavya, organic agriculture, bio-energy, yoga, meditation, etc.
- Gopratishta: Redistribute cows to the farmer, while providing financial support

To achieve this noble cause, you are heartily invited to join for training, education & self-entrepreneurship
